

Fyllofys

BPIR Declaration

Version: V1-09/23

Designated building product: Class 1

Declaration

Beele Australasia Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

| | |
|-------------------|--|
| Name | Fyllofys |
| Line | Fyllofys products, board, tiles, molded shells, and elbows are all made from Silicate and Vermiculate substrate. Coated with Fissic fire retardant coating. |
| Identifier | Fyllofys |

Description

Fyllofys is used as a fireproof barrier that can be fastened or adhered to various substrates to increase FRR ratings depending on depth. It can be used to also fill in open voids to create

fireproof barriers. Also available in two-piece shells and elbows in various sizes for insulating pipes. All Fyllofys products are suitable for outside environments.

Fissic coating is a water-based polymer emulsion providing a fire resistance and is also gas tight to 30mBar. APEO free and contains no VOC solvents.

Scope of use

Boards and tiles, For use on walls and ceilings. Can be used both inside and outside. Can be used on all building substrates. Two piece shells and elbows, For use on all metal pipes for insulation.

Conditions of use

To be used as a system and compatible with other Beele Engineering products designed for various applications. Installation procedures to be adhered to as per Beele installation manuals and videos. Available on : www.beele.co.nz www.beele.com.au Resources tab, product manuals, Videos, SDS, BPIR.

Relevant building code clauses
